

Dear Chris,

1/3/83

We were glad to get the family picture and to see how nicely the kids are growing up. Thanks.

Some time ago I wrote Robert about making slides of the Zapruder film. When you were here it was pretty certain that as a result of one of the FOIA lawsuits I'd be permitted to make copies. Robert then said he'd like to make them for me. We have reached an agreement, in writing, and after a week, when Jim Lachar returns from Singapore, the details will be worked out.

But Robert has not responded.

I'm writing you because I seem to remember that he dislikes writing letters.

Would you please let me know if he is still interested in doing this? It now will make a problem for me if he doesn't because I now don't know anyone good enough to do that work.

While I don't know if it now will be possible, ask him if it wouldn't be a good idea to make 4x5 color transparencies, too, and if so, how much the cost will be increased.

We are both well. We hope all of you are, too, and that the coming year is a fine one for all of you.

Our love,
